Projects

FlashLightIP for Windows Phone 8

May 2013 to Present

Members:Ishan Pandya

This project was developed by me as a project for M.S.C. IT. This application is currently available in the Windows Phone Market for download. FlashLight IP is a simple tool which uses the Camera LED. It is bright, easy to use and turns on instantly. It provides the light when you need it. Runs under lock screen. If you're looking for an easy-to-use flashlight app, FlashLight IP is the one you need. Features in version 1.1... * Can run under Lock Screen. * Enable disable auto start from the settings. * Enable disable run under lock screen from the settings. * Bug Fixes. Features in version 1.0... * Light turns on faster as soon as the app launches * It provides the brightest light, using the camera flash or screen . * Designed to use as little battery life as possible * Displays battery percentage on the top.

IT Acronyms for Windows Phone 7.5

May 2013 to Present

Members:Ishan Pandya

IT Acronyms contains list of IT – Computing Acronyms for Windows Phone users. The best feature of this application is that it does not require an internet connection. All Acronyms are available offline for searching. Features in version 1.1... • Updated DB. • UI fixes. Features in version 1.0... • Filter Acronyms. • Detail view of Acronyms. • Share Acronym via SMS. • Share Acronym via Email. • Share Acronym by Posting to social networks like Facebook & Twitter. • Offline list of Acronyms. • Copy Acronym detail • Random Acronyms

Dictate!

January 2013 to June 2013

Members:Ishan Pandya, Vrinda vyas

Dictate! The All-In-One Dictation Tool for Windows Phone. No more typing on your Windows Phone! With Dictate! you never need to type a text message, an email, a Facebook post, a Word document, or

anything else, again! This app allows you to create or edit even very long notes by simply talking into your phone

Voice Answer

September 2012 to January 2013

Members: Ishan Pandya, Vrinda vyas

Voice Answer is the new generation artificial intelligence answer-bot, on your Windows Phone. Eve is not intended to be a virtual assistant. She provides high quality information and answers to questions. She is an information & knowledge bot and she does this better than anything else out there! Speak or type questions to the bot (Eve) and she will answer you. She won't point you to websites, like search engines do. Instead, her answers are concise and intelligent. She speaks.
